# Add Carriers

- Keep your carrier information at hand and organized in one location
- Upload carrier information (i.e. carrier authorities, insurance, carrier-broker agreement, etc.)
- Input individual carrier insurance expirations so that you can be notified when it expires
- From this screen, a certificate of insurance can be requested directly from the agent
- Enter information detailing a carrier's equipment type
- In order to ensure that your company is doing business with approved carriers, carrier activation can only be made by an administrator

The screenshot shows the 'Dispatch' software interface for adding a new carrier. The header includes the 'Dispatch' logo and navigation links for HOME, CONTACTS, LOGIN, and CONTACT. Below the header is a navigation menu with tabs for Company, Address Book, Carriers, Leads, Warehousing, Trucks, and Reports. # Add A Load

- Adding a load is very simple. Quickly access your address book in a drop down menu as you type in the first letters of a customer name, shipper, consignee, and carrier
- Choose the type of currency you wish to utilize in funding a load
- Create an LTL load with the desired class(es) and NMFC(s)
- Add a custom broker for international bound shipments
- Post your load to various internet websites or allow the load to only be viewed in-house
- Share company load information with desired agent(s) and/or employee(s)

# Accounting

- Enables the administrator to locate, monitor, and update the company's completed loads in order to pay the carriers and invoice the customers in an efficient manner
- Easily export and input this information into the accounting software of your company's choice (i.e. QuickBooks)

The screenshot displays a software interface titled "Dispatch" with a navigation menu at the top. The main area contains a large table with multiple columns, likely representing load details, carrier information, and financial data. The table is organized into several sections, with a header row and multiple data rows. The interface is designed for efficient data management and reporting.
